Help on the Adlib Internet Server Search system
Read this first!
In the form, different fields can be filled. After you have clicked 'Submit form', a search will be performed for records that comply with the query you have formed by entering data into the fields. The order in which you fill the fields is not important.

The search routine is case insensitive.

article in catalogue

**Preference of use for:
library catalogue:**

-AdLib (web browser)

-vs Reference Manager

Webcat vs RM

NKI/AvL publications:

- in RM- database?
- in Web Poster
- in AdLib catalogue
- PubMed HTML-page
- predefined search strategy (current)
- PMID numbers in strategy
- other preferences?
