

TITLE:

ePORTUGUÊSe Project Brazilian perspective

AUTHOR(S):

Eliane Pereira dos Santos

AFFILIATION:

General Coordinator of Information and Documentation – Health Ministry in Brazil.

ABSTRACT:

The proposal is to present the Brazilian experience in improving the technical cooperation throughout the ePORTUGUÊSe Network in the aspects of Information, Communication and Knowledge Management. Since 2004 the Brazilian Ministry of Health contributes with the Blue Trunk Library (BLT) in Portuguese. Almost 3 thousand institutional publications were sent to Geneva in order to compose the BLT (2004-2010). To establish this compromise this Ministry has with World Health Organization the Memorandum of Understanding. Regarding to the goals for 2008-2011 the results from this work is registered at PAC MAIS SAÚDE, the Government Strategy in Health Sector. Nowadays the perspective is to improve the ePORTUGUÊSe network in Pan-American Health Organization – Brazilian Representative with the objective to straight the technical cooperation and to integrate the perspectives of Information, Knowledge and Communication in the South-South Cooperation.
