## **Our Patrons**

### Our Patrons' Age

#### Localization

#### MOODLE - Modular Object Oriented Dynamic Learning Environment

- It is a free learning platform
- It is user-friendly and highly interactive
- It allows one to easily create and modify content and courses from both existing and new sources
- It has an asynchronous learning environment (any time and anywhere learning)

# MOODLE

Conference of Academic Medical Libraries in the fall of 2009 in Lodz Moodle should become the educational platform for all academic medical libraries in Poland.

January 2010 – Moodle Workshop for Medical Librarians in Lodz. Moodle instalation in Library of Medical University of Lodz
