Measurement and Impact

Country eligibility

Band One

- **67** countries with GNI per capita of <$1250

- Research4Life programs are FREE for Band One countries. Only registration is necessary.

Band Two

- **38** countries with GNI per capita of $1250-3500

- AGORA, OARE, and HINARI programs are available for $1000/year.

105 countries

4,850 registered institutions *(June 28, 2011)*

Institutions registered with HINARI *

Information resources

- 300 publishers, 140 commercial publishers
- More than 8,300 journals with full-text access.
- 27 databases and indexes, 10 with free access
- 43 reference sources, 9 with free access
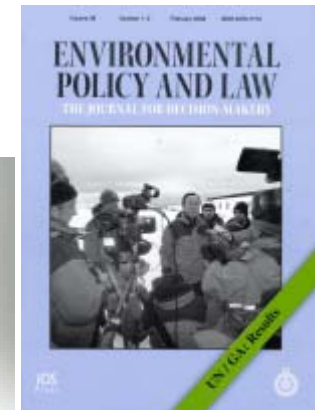

Usage and impact

- More than 12 Million pages viewed by HINARI users (Band 1) during the period from June 2007 till May 2011.

- More than 5 Million pages viewed by HINARI users (Band 2) during the period from June 2007 till May 2011.

- The research output in developing countries increased 194% in five years.

Top 20 HINARI users during 2007-2011
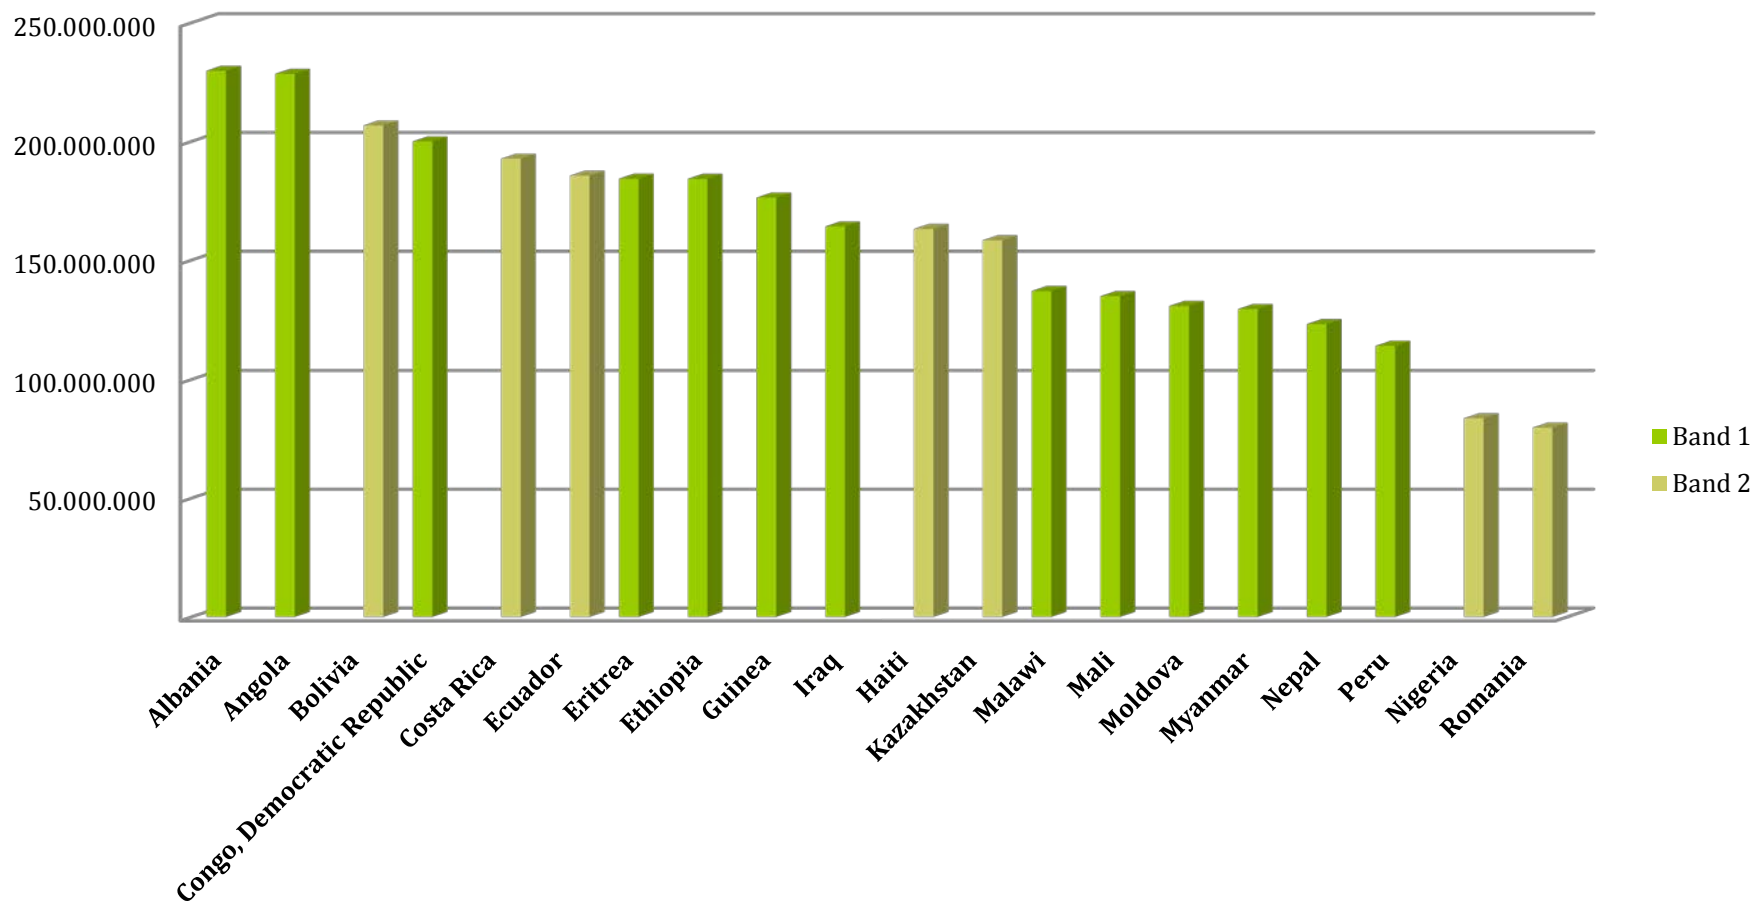

Training and Outreach

Training modules

Module 1. HINARI: The Beginning

Basic Internet Concepts; E-Resources & Internet Searching; Health Internet Information.

Module 2. HINARI Website Interface & Resources

Registration & Login, Finding Journals, Articles and other Full-text Resources.

Module 3. HINARI Partner Publishers' Resources

Science Direct (Elsevier Science), HighWire Press, Wiley and Nature Publishing

Training modules

Module 4. HINARI/PubMed

Website Interface; Using Limits; MeSH; History, Access to Full-text articles; My NCBI.

Module 5. Managing References

EndNote Web Reference Management Software.

Module 6. HINARI Next Steps

Tools for using the HINARI resources at your institution: Marketing Strategies for HINARI; Training Users on HINARI; Repackaging Health Information; Strategies for Managing Change for HINARI.

Training modules

Module 7. HINARI Additional Resources

Other HINARI resources including Evidence-based practice and E-books plus Information Literacy and WHO Resources .

Module 8. HINARI Template for Band 2 countries

Suggested changes for workshops where some of the HINARI resources are not available

Hinari: Quiz

Test your HINARI knowledge

Brief training

HINARI Short Course

Basic HINARI skills including Background, Registration & Login, Searching Strategies, HINARI and PubMed website features, MY NCBI and Training Materials.

HINARI Training Material

A summary of the HINARI training material - for trainers & course participants.

Presentations

HINARI & R4L Overview for visitors from Eligible Countries

Overview for potential users or individuals who have linkages with eligible institutions.

HINARI Overview for Registered Institutions

For presentation at HINARI registered institutions; to promote the various resources (e-journals, reference sources, databases, etc.) to potential users.

Authorship skills

HINARI Authorship Skills

Modules developed to assist authors in HINARI eligible countries; includes:

- ❑ How to Write a Scientific Paper/Structured Abstract
- ❑ Copyright and Plagiarism
- ❑ Strategies of Effective Writing
- ❑ Web-Bibliography

Languages availability

All training modules (presentation and practical exercises) are available in English, Arabic, French and Portuguese, Spanish and other languages will be added .

Distance learning courses

HINARI Short Course (for users) and the HINARI Train the Trainers Course (for trainers) are online on:

The Medical Library Association (USA) distance learning server as well as on the Information Training and Outreach Center for Africa (ITOCA) site.

These courses are self-paced, take 4-6 hours. Upon completion of the exercises, students will receive certificates

Available Courses

HINARI Access to Research in Health Programme: Train the Trainers Course
Teacher: Lenny Rhine

This course will highlight the key features of HINARI (www.who.int/hinari/en/) and related training materials. Also to be discussed are possible sources for workshop funding.

It is geared toward individuals in developed countries that have linkages with HINARI eligible institutions. The participants will be able to instruct individuals from these institutions. This training could be to visitors or graduate students at the participant's home institution or at the partners' sites.

The course is sponsored by the Medical Library Association/Librarians Without Borders® E-Library Training Initiative that is funded by the Elsevier Foundation.

HINARI Access to Research in Health Programme: Short Course
Teacher: Lenny Rhine

This course is an overview of the key components of HINARI. Students will obtain baseline skills to efficiently use the HINARI resources. It is geared toward users from registered institutions and also is a useful training tool. The course is sponsored by the Medical Library Association/Librarians Without Borders® E-Library Training Initiative that is funded by the Elsevier Foundation.
