- Minimizes need for researchers to maintain multiple copies of their profile with multiple systems.
- Ensures a clearinghouse exists which fosters the easier interchange of profile data.
- Allows a service like Pivot to focus on how we can employ profiles to make other tasks (for example - finding funding and research collaborators) easier.

Connect. Create. Collaborate.

The **NDSU Research and Technology Park** and the **NDSU Office of Research and Creative Activity** created this site for businesses, university researchers, students, and others interested in NDSU expertise and capabilities. For best search results, read these **TIPS**.

As a student focused, land grant, research institution, **North Dakota State University** serves the citizens of the state and conducts research that also helps solve challenges of the nation and the world. NDSU research and creative activity is diverse, productive and thriving, and it holds much potential for further exploration and collaboration.

The vision of the **NDSU Research and Technology Park** is to be a catalyst for innovation in science and technology that will contribute to North Dakota's economic development. We are doing it right here, today, in a positive and forward looking atmosphere with innovators and companies that embrace our global sensibility.

Here is the place to start, whether you are a company looking for specific research or consulting expertise, a faculty member seeking research collaborators, a student looking at graduate school possibilities, or someone seeking an expert in a specific field.

We're looking forward to connecting with you!
