INTRODUCTION

SUE THOMAS
CHAIR OF THE LOCAL
ORGANISING COMMITTEE

Inspiring Involving Informing

Welcome to the first European Association of Health Information and Libraries (EAHIL) Conference being held in Cardiff the capital city of Wales 9-13 July 2018.

The Local Organising Committee in partnership with the International Programme Committee has planned an exciting, challenging and different programme for all conference delegates.

Our world class conference venue at the Royal Welsh College of Music and Drama offers us a unique opportunity to look at the themes of health and wellbeing. We have a concert hall for our plenary sessions, and the Richard Burton Theatre for some of the parallel sessions.

So join us for the 16th EAHIL Conference as together we explore the ways in which we are 'Inspiring, Involving and Informing: Improving the Health and Wellbeing of the Citizens of Europe.'

It's easy to use and visually attractive!

SPECIAL COLLECTION EXHIBITIONS - LINBURY GALLERY

The Conference this year will feature exhibitions from two unique collections.

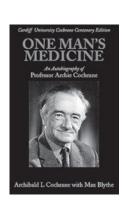

Royal College of Nursing History Box

A collection of historical items, sourced from the RCN archive, donated to or made for this handling collection. The items tell the story of the RCN and give an insight into how nursing has changed (and how it's still the same!) through pieces of nursing equipment, journal articles and RCN paraphernalia. Everything in the box can be touched, tried on and pages can be turned for a good read!

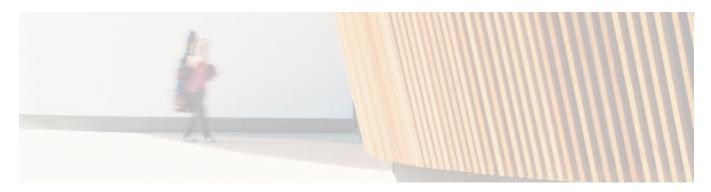

Cochrane Archive

Archie Cochrane is a familiar name to health librarians world-wide, but you may not know that he spent his career in South Wales and was closely associated with Llandough Hospital, five miles outside Cardiff. The Cochrane Collaboration was named after him, and follows his call for an evidence base for the practice of health care. The Archie Cochrane Library at the hospital houses the Cochrane Archive, a collection of material relating to his personal life and his professional work. Items and photographs from the Archive will be on display during the Conference.

We will be selling copies of One Man's Medicine at the conference (£14.99 - cash only) If you would like to reserve a copy, please email Rosemary Soper, the Curator of the Archive: soper@cardiff.ac.uk

VISUAL MINUTES, FRAN O'HARA, SCARLET DESIGN

<u>Fran O'Hara</u> is Founder & Creative Director of Scarlet Design - a strategic thinking, design, training, and visual facilitation consultancy.

As an industry expert with 20+ years' experience, with her team she creates visual tools which transform the way people and organisations work, and how stories are defined and communicated. Fran specialises in facilitation and engagement using visual methodology to help clients tell their stories - from hand-drawn to digital, and from small to giant scale.

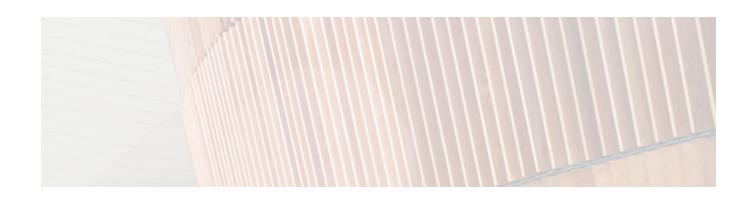

At the conference Fran and her team will be creating a giant Big Ideas Wall, capturing participants thoughts and ideas, similar to the Public Health Wales wall example. Make sure you visit and record your ideas so they can be visualised! Please tweet the maps during the conference, and afterwards the maps will be digitised and shared.
