

Putting people first – advocating for Information Professionals in Health

Ayub Khan, CILIP President

Head of Face-to-face Services, Warwickshire County Council

EAHIL Keynote, 11th July 2018

Introducing CILIP

CILIP is the UK's information and library association, representing a UK workforce of 87,000 Information Professionals and a membership of 11,000.

www.cilip.org.uk

Our Charter

CILIP is the only organisation in the world operating under Royal Charter to unite, develop and promote the interests of all Information Professionals, with the support of our Patron, HM Queen.

Securing the Future

We are living and working in the early days of a society and an economy that are being transformed by knowledge, data and information. We want to ensure that Information Professionals are leading this transformation.

Data Professionals

Data Scientists

Data Analytics Managers

Machine Learning Specialists

Artificial Intelligence Specialists

Why Health?

Since 2015, CILIP has prioritised our work with librarians and information professionals in health, for several reasons:

- **Good existing representation**
- **Strong partnership**
- **Evidence-base**
- **Legislative**
- **Shared values**

Advocating for the profession

CILIP is proud to be the independent voice for librarians and information professionals in all sectors through : -

- **Networks**
- **Media**
- **Employers**

#AMillionDecisions

£500,000 saved: clinical librarian crucial to success of Nursing Supplies Group

As a member of the Nursing Supplies Group, the clinical librarian brings evidence around the clinical efficacy and safety of clinical items to inform purchasing decisions.

“ The clinical librarian has been crucial to our success in delivering cost efficient savings to the Trust whilst maintaining quality ”

Jim Collins, Head of Procurement & Supplies, working with Tracey L Roberts Cuffin, Head of Library & Knowledge Services, University Hospitals of Morecambe Bay NHS Foundation Trust

Librarians and Knowledge Specialists bring the evidence to inform healthcare decisions

#FactsMatter

#FactsMatter is the ongoing campaign to highlight the importance of librarians and information professionals in evidence-based policy making

Developing a 'future-ready' workforce

- **Redefine**
- **Recognition**
- **Leadership**
- **Diverse Talent**

Redefining 'professionalism'

We will be launching a Professionalism Review to redefine what it means to be a professional working in libraries and information today. Embracing a progressive and inclusive vision of a professional.

Reconnecting with Ethics

Our 18-month *Ethics Review*

Leadership at every level

Building on the successful partnership with HEE, CILIP sees leadership development (and diversity in leadership, including gender pay parity) as critical to the future health of the sector;

Attracting, retaining and developing talent

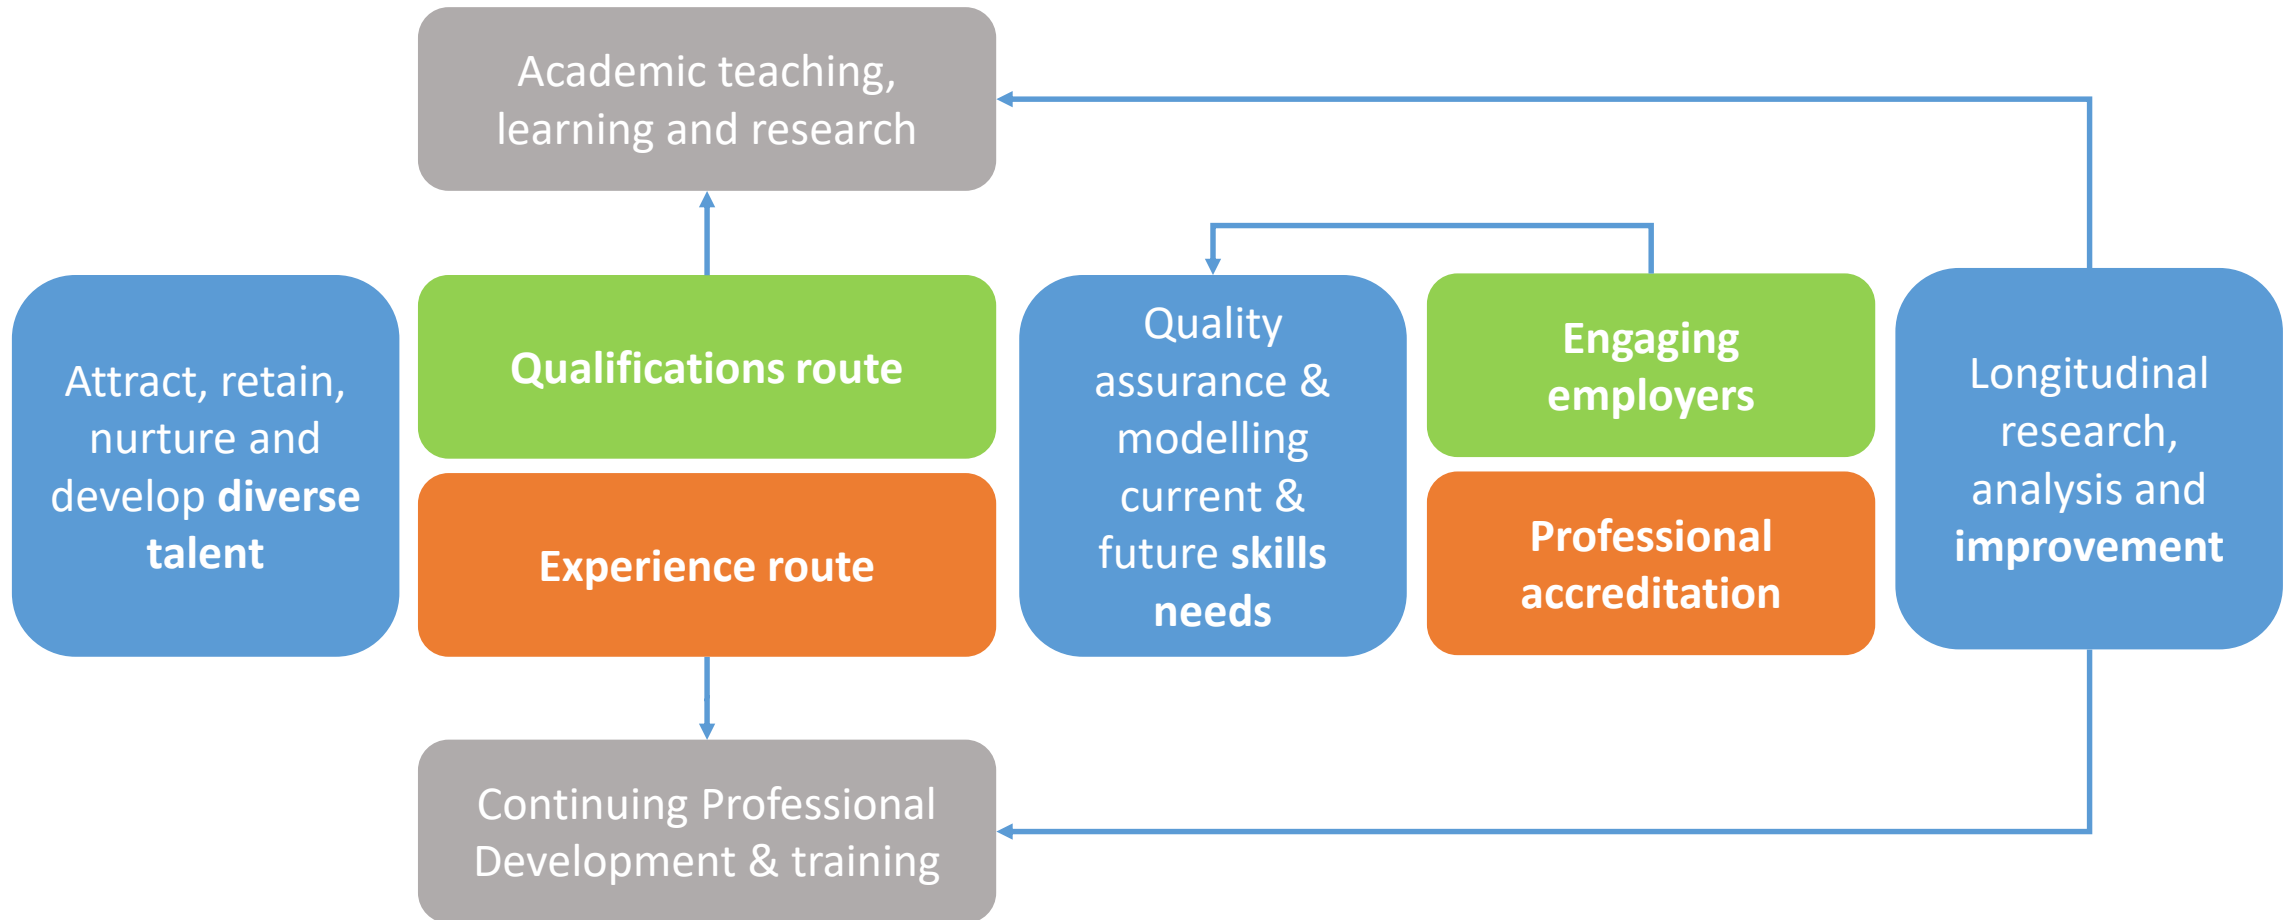

We need to put down ladders to welcome the next generation of librarians and leaders, from all backgrounds

Taking a fresh look at Skills

The Skills Supply Chain

Foresight and insight

- Capacity for foresight
- Evidence-based
- AI & Automation
- Data Science & Analytics
